JAN 09
2019

Webinar 4

The Great Debate

18:00 - 19:00 CET

17:00 - 18:00 GMT

Overview

This e-learning program is an innovative online training series in which leading KOLs will not only address the barriers to obesity and T2D treatment, but also discuss in detail how to unlock them.

During three webinars the faculty will demonstrate insightful aspects of a specific barrier and present different approaches on ways of overcoming it.

To conclude this e-learning series, the panel moderators will review the main points of the previous sessions and engage in a final Great Debate.

Delegate Criteria

This educational activity is intended for an international audience of bariatric and metabolic surgeons, as well as diabetologists, endocrinologists and primary care physicians involved in the treatment of patients with obesity and type 2 diabetes mellitus (T2DM).

Yours sincerely,

Ute Kablitz
